

# CENTUM WORLD

Centum World is an innovative, decentralized, crypto-based SaaS cloud application. It has crypto-exchange that can be used to trade CENTUMO TOKEN (CENT) (BEP20 token) and the world's most popular cryptocurrencies. Centum World is built with the aim of providing traders with a secure trading environment, while ensuring users experience the fastest possible trading speeds. It provides a utility token that can be used to buy and sell goods and services anywhere in the world. Centum World also has a built-in Affiliate system, where users can earn a share of revenue from purchases made by their friends and families. The Centum World platform also provides users with a variety of tools and features, including a high-quality customer support system that enables them to quickly resolve any issues.

Centum World provides following services:

1. Advanced Billing Application (**CENTUM PLUS**) \*
2. 10+ AI based applications/tools (**CENTUM APPS**) \*
3. Affiliate, Block-chain program \*
4. Crypto-exchange platform (**TOKEN-API**)
5. CENTUMO TOKEN (**CENT**) (BEP20 Token)

(\* services comes with a very minimal amount of one-time subscription of only \$10)

---

## CENTUM PLUS

Make invoicing a breeze. CENTUM PLUS is easy-to-use and perfect for small, medium, and large enterprises. Billing software has a great admin panel for managing your business. Track your business revenue and expenditure easily with reports. Automatic tax calculation, printing of invoices, import and export of data

make it a one-stop solution for your business needs. We all want to manage time efficiently. With CENTUM PLUS, you can forget about the tedious billing process and focus on better things. It has a powerful admin panel with an employee management system and a lot of other features. Moreover, it has good transaction analytics and an intuitive interface that aims at saving your time and efforts.

## How to use?

1. Subscribe to Centum World.
2. Register your store at Centum Plus.
3. You can directly see our dashboard with analytics.
4. You can import your Inventory directly from csv or excel sheet or you can add products manually.
5. If you add bill from a particular vendor, the products will get added automatically according to the stock.
6. Make Retail and Wholesale billings from the customers' portal.
7. Generate Invoice and print it for your customer.
8. If you are a pro member, you can create multiple access to your store/admin panel by adding employees.

## Screen Shots:

The screenshot displays the Centum Plus Admin Dashboard. The main content area shows a summary of financial metrics:

- TOTAL PAID BILL: Rs. 0.00
- TOTAL DUE BILL: Rs. 0.00
- TOTAL CREDIT: Rs. 82.53
- RETAIL SALES: Rs. 82.53
- WHOLESALES: Rs. 0.00
- TODAY'S SALES: Rs. 82.53

Below the metrics, there are sections for 'Retail Customers' and 'Vendors'. The 'Retail Customers' section lists 'Mainak Debnath' with ID 8100513876. The 'Vendors' section is currently empty. The dashboard also features a sidebar with navigation options like Dashboards, Management, Inventory, Products, Vendors, Orders, Customers, and Invoices. The top navigation bar includes a search bar and a 'SIGN OUT' button.

# TOKEN-API

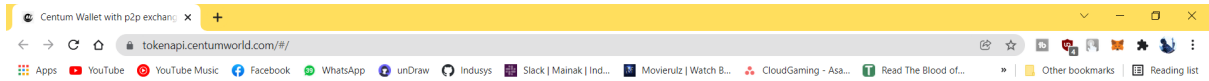

CENTUM TOKEN-API is a decentralized financial exchange platform that allows people to trade in the cryptocurrency market in a transparent and secure manner. It is a protocol for trading cryptocurrency, enabling cross-chain transactions and atomic swaps. The CENTUMO token (CENT), an BEP20 utility token, is the base currency used on the CENTUM TOKEN-API platform.

Invest in the world's highest-potential cryptocurrencies with confidence. This is the world's only crypto trading platform that allows you to invest in multiple cryptocurrencies, including Bitcoin, Ethereum, Binance, Polygon with one account. Our diverse portfolio of crypto investments helps you to balance risk and maximize profit potential.

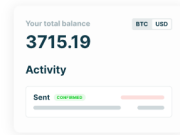

## How to use?

1. Login to your Centum World Dashboard.
2. You either create a new wallet or restore your wallet from a recovery phrase or connect your wallet from any external wallet like Metamask, Trust Wallet, etc.
3. Backup your wallet with a recovery phrase.
4. Buy tokens directly using your Credit/Debit card
5. Send any transaction to any trusted address and watch your all listed transactions.
6. You can swap tokens through our exchanges:
  - a. Quick Swap (Aggregator, Pancake Swap, Uniswap)
  - b. Peer-to-peer exchange
7. Provided liquidity and withdraw your profitability
8. Purchase our CENTUMO TOKEN (CENT) using Binance Smart Chain.
9. Choose your suitable language.

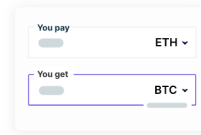

## Screen Shots:

### Simple interface to access blockchains

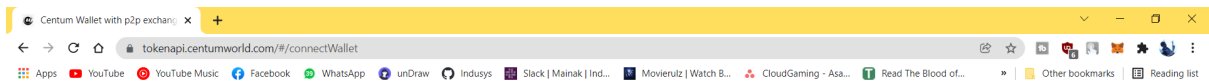

Store, send, receive cryptocurrencies (Bitcoin, Ethereum, tokens...) without installation and registration

Trade on the decentralized P2P exchange using atomic swap technology
